

Module 2 – High Impact UI Policy

Create a UI Policy on the Incident table

Purpose

Create a UI Policy named High Impact Control. The policy becomes active when the Incident Impact field is set to 1 – High.

Navigation

Log in to ServiceNow with administrative or configuration access.

Navigate to System UI → UI Policies.

Click New.

Configuration

Name: High Impact Control

Table: Incident

Active: true

Condition: Impact is 1 – High

UI Policy Action field: Assignment group

Mandatory: checked

Reverse if false: true

Steps

1. Open System UI → UI Policies.
2. Click New.
3. Enter High Impact Control as the Name.
4. Select Incident as the Table.
5. Make sure Active is enabled.
6. In Conditions, select Impact, operator is, and value 1 – High.
7. Configure the Assignment group UI Policy Action as mandatory.
8. Enable Reverse if false.
9. Review the configuration.
10. Click Submit.

Expected Behavior

When Impact = High, Assignment group becomes mandatory. When the condition becomes false, Reverse if false restores the previous field behavior.
